Dear Mr. Mark Rücker!

The 9th State Fire Rescue Division of the Main Department of the State Emergency Service of Ukraine in Kyiv region (hereinafter as the “9th SFRD MD of the SESU in Kyiv region”) presents its compliments and express the sincere gratitude to You and all personnel of the Kreisfeuerwehrverband Schleswig-Flensburg for the donated fire rescue aid to our division.

Every day Kyiv regional rescuers as all Ukrainian rescuers, despite fire from Russian troops, risking their own lives, fighting fires, rescue people from disaster, ensure the citizens evacuation from Kyiv region’s towns (in particular from places of heavy fighting within the region, Irpin, Bucha, Hostomel, Ivankiv, Borodyanka, Brovary and other localities). The granted assistance to the division will provide an opportunity to save hundreds of lives.

During these challenging times when, more and more people need care and financial assistance, it becomes difficult to find those who are able to perceive other problems as their own, and it is great that such people are still exist.

Very pleasant to live and work in a world with people who care about the citizens’ health and lives of another country, who do not stay away. Until such people live and work, our nation of Ukrainians also will live as well. Would like to avail itself of this opportunity to renew the gratitude for your support and your sincere hearts. May your kindness and generosity return to you a hundredfold.

Warmly thanks for your support!

Kind regards,

Chief of the 9th SFRU
MD of the SESU in Kyiv region
lieutenant colonel of the civil protection service

Oleksandr SUSHKO
